Cherwell

DISTRICT COUNCIL
NORTH OXFORDSHIRE

#Cherwell2030

We will take Climate Action:

In our organisation by making our corporate estate and operations carbon neutral by 2030 by reducing:

- Our fleet and fuel consumption
- The mileage we consume through our staff travel
- The mileage we consume through business travel
- The energy we consume through our leisure centres
- The energy we consume in our buildings
- And increasing our renewable energy generation

Across Cherwell by working with partners to decarbonise the district by:

- Changing how we procure and the impact of our suppliers
- Helping to improve the environmental sustainability of businesses
- Changing social norms and behaviours relating to energy use and travel
- Reducing domestic energy use and supporting domestic renewable energy generation
- Encouraging more sustainable transport
- Improving the environmental standards of existing and new buildings
- Keep you informed on our Climate Action plans and progress

Through these actions we will:

- Enjoy cleaner air
- Be more active
- Collaborate and share on a wide range of issues
- Create more inclusive communities
- Live and work in more comfortable buildings
- Be proud of our achievements
- Be more resilient to changes in our climate
- Have a stronger community and economy
