Monthly Performance, Risk and Finance Monitoring Report

Report of Assistant Director of Finance and Head of Insight and Corporate Programmes

This report is public

Purpose of report

This report summarises the Council's Performance, Risk and Finance monitoring positions as at the end of January 2022.

1.0 Recommendations

The meeting is recommended:

- 1.1 To note the performance aspects of the monthly Performance, Risk and Finance Monitoring Report

2.0 Introduction

- 2.1 The Council is committed to performance, risk and budget management and reviews progress against its corporate priorities on a monthly basis, however due to redeployment of resources supporting Omicron variant there was no report during December 2021.
- 2.2 This report provides an update on progress made during January 2022, to deliver the Council's priorities through reporting on Performance, the Leadership Risk Register and providing an update on the financial position.
- 2.3 The Council's performance management framework sets out the key actions, projects and programmes of work that contribute to the delivery of the 2021-22 business plan and the priorities of the Council. These measures and key performance indicators are reported on a monthly basis to highlight progress, identify areas of good performance and actions that have been taken to address underperformance or delays.
- 2.4 As part of monthly reporting, the Insight Team provides the Senior Management Team with a corporate complaints report. Complaints received during the month are closely monitored and analysed. The mandatory lessons learned data continues to be implemented and we are starting to see a decrease in the number of upheld complaints. Lessons learned are reported to ELT (Extended Leadership

Team) and progress is monitored to ensure actions are implemented to avoid the same complaint being reported.

2.5 The Council maintains a Leadership Risk Register that is reviewed on a monthly basis. The latest available version of the risk register (at the date this report is published) is included in this report. The Leadership Risk Register and strategy are reviewed on an annual basis as part of the budget and business planning process, reflecting on the priorities of the council for the forthcoming year. The Leadership Risks reflected in this report have been thoroughly reviewed by ELT and will continue to be updated on a monthly basis.

2.6 The main report details section is split into three parts:

- Performance Update
- Leadership Risk Register Update
- Finance Update

2.7 There are two appendices to this report:

- Appendix 1 – 2021/22 Business Plan
- Appendix 2 – Monthly Performance Report – January 2022

3.0 Report Details

3.1 The Council's performance management framework sets out key actions, projects and programmes of work that contribute to deliver the refreshed 2021- 22 business plan (see Appendix 1) and the priorities of the Council.

3.2 The 2021-22 business plan sets out four strategic priorities:

- Housing that meets your needs
- Leading on environmental sustainability
- An enterprising economy with strong and vibrant local centres
- Healthy, resilient and engaged communities

3.3 This report provides a summary of the Council's performance in delivering against each strategic priority. To measure performance a 'traffic light' system is used. Where performance is on or ahead of target it is rated green, where performance is slightly behind the target it is rated amber. A red rating indicated performance is off target.

Colour	Symbol	Tolerances for Business Plan Measures	Tolerances for Key Performance Measures (KPIs)
Red		Significantly behind schedule	Worse than target by more than 10%.
Amber		Slightly behind schedule	Worse than target by up to 10%.

Green		Delivering to plan / Ahead of target	Delivering to target or ahead of it.
-------	---	---	---

Priority: Housing that meets your needs

- 3.4 The Council is committed to deliver affordable housing, raising the standard of rented housing and find new and innovative ways to prevent homelessness. Also, to promote innovative housing schemes, deliver the local plan and supporting the most vulnerable people in the District.
- 3.5 Overview of our performance against this strategic priority:

Homes Improved through enforcement action reported Green for January and Green for year to date. We were able to complete the improvement of 4 homes in January 2022, during December 2021 24 homes were improved through interventions. To date, we have facilitated the improvement of 120 homes through interventions, exceeding the annual target of 90.

Average time taken to process Housing Benefit New Claims reported Red for January and Green for year to date (17.78 average days against target of 15). This month's performance is slightly under target as the team has been working on reducing the backlog of work due to the transition from CSN and recruitment and training of new staff.

Homelessness Prevention reported Amber for January and for year to date, the number of cases approaching crisis has been rising and is expected to continue over the coming weeks and months. The team efforts to prevent homelessness in many cases is increased by the lack of options for families on low income or benefits. Rents in the private sector are beyond reach and waiting times on the Housing Register, for social housing, are increasing. Resources are focused in providing assistance at the earliest opportunity, but evictions which were delayed still as a result of COVID-19 and are now being actioned, this will result in rise in temporary accommodation placements.

Priority: Leading on environmental sustainability

- 3.6 The Council is committed to deliver on sustainability and in the commitment to be carbon neutral by 2030, promotes the Green Economy and increases recycling across the district. This priority includes the protection of our natural environment and our built heritage, working in partnerships to improve air quality in the district and the reduction of environmental crime.

3.7 Overview of our performance against this strategic priority:

% of Waste Recycled and Composted reported Red for January and Amber for year to date (54% against target of 56%). Dry recycling and residual tonnage is comparable to last years with garden waste, and down over 600 tonnes. Recycling is on track to reach its 56% at the end of year. Street sweeping is also down over 200 tonnes due to a reduction in service. The main reason this month, and next few months, is going to record lower figures is because of reduction of garden waste, in winter.

High Quality Waste and recycling service to residents to support a sustainable lifestyle reported Amber for January and Green for year to date. Overall waste started to reduce, compared to last year, as more people got back to the workplace, recycling rate was 33.72% for January against a target of 56%, this is due low garden waste collected, as per usual for this season. Over 35,000 residents have had their new caddies, liners and leaflets for the new food waste service and chargeable garden waste social media posts are reaching our residents, with 18,000 of them signing up for their first subscription.

Priority: An enterprising economy with strong and vibrant local centres

3.8 The Council is committed to support business retention and growth, developing skills and generating enterprise; also, securing infrastructure to support growth in the district and securing investment in our town centres. This priority also contributes towards making communities thrive and businesses grow promoting the district as a visitor destination, committing to work with businesses to ensure compliance and promote best practice.

3.9 Overview of our performance against this strategic priority:

% of Council Tax Collected, increase of Council Tax Base, reported Red for January and Amber for year to date (8.87% against target of 10.75%). As at 1.2.2022 the amount of council tax due to be collected is just over £117.6m due to further growth within the district. Whilst the year-to-date collection rate of 92.57% is slightly lower than the target of 95.75%, this year's collection rates are higher than this time last year. The amount collected, in December, remained similar to previous months, however, payments received during January decreased slightly due to the ongoing pandemic and Christmas. Reminder notices have been issued to customers in arrears by £15.00 or more and should payment not be forthcoming, formal recovery action through the courts will commence.

Development of the Recovery and Prosperity Strategy for Cherwell (RPS) for Cherwell reported Amber for January and Amber for year to date, and it has been paused while urgent COVID-19 response work was prioritised. The adoption of a strategy to the governance cycle will be reprogrammed.

Priority: Healthy, resilient and engaged communities

3.10 The Council is committed to enabling all residents to lead an active life, improving, and developing the quality of local sports and leisure facilities and promoting health and wellbeing in our communities. Also, supporting community and cultural development, working with our partners to address the causes of health inequalities and deprivation, and to reduce crime and anti-social behaviour.

3.11 Overview of our performance against this strategic priority:

Support Community Safety and Reduce Anti-Social Behaviour reported Green for January and year to date. The community safety team continued joint working with Thames Valley Police to tackle anti-social behaviour last month, with the issue of 3 community behaviour orders relating to persistent anti-social behaviour, joint visits to residents affected by anti-social behaviour, and our team providing

input into a Police training day. Planned community safety activity for February includes with hi-visibility patrols in town centres to raise awareness of the support our community safety team can provide residents and to deter business related crimes. The team will also be

supporting a schools programme promoting personal safety in the community.

Number of visits/usages of District Leisure Centre Usage reported Green for January and year to date. The visits to our leisure centres and facilities are up against the previous month of December 2021, though this is expected as introduction of new year business in January. As the Centres were closed due to the pandemic in January 2021 there is no data to compare this to. The current figures are at a level of pre Covid usage, reflecting perhaps a quicker recovery in outdoor sports settings.

- New Design Standards for New Build and Refurbishment, also a joint project, was completed
- Air source heat pumps are being installed at Leisure Centres, funded by Public Sector Decarbonisation Scheme

3.14 Service in Focus – Wellbeing Initiatives

Cherwell's **FAST** programme continues to grow and make physical activity easier for families who really need it. Initially based in targeted wards of Banbury, and due to its success, has been expanded to targeted wards of Bicester and Kidlington. FAST now has 7,500 individuals and 2,900 families on the programme, has prompted Public Health to use the concept to expand family provision across the county. The programme offers activities for families based at Schools, Parks and Community settings as well as offering discounts, through FAST card, such as £3 family swim instead of the £13 charged. The programme is also being held up as best practice by Sport England.

Also, the Move Together Programme funded by the Clinically Extremely Vulnerable pot of funding to offer adults disproportionately affected by the pandemic and with a long-term condition, have easier access to physical activity, offers motivational support to everybody who signs up along with tailored home activity packs, equipment and discounted opportunities in the community. There is the option to either join specific Move Together Seated Exercises, Walking, Yoga and much more, taking advantage of the 50% discount with a Move Together card, for activities such as swimming or exercise at home, and where a bespoke plan would be designed. So far, 225 adults have

joined the programme, by referral through a health professional or by self-referral with intervention, having a huge impact, with 76% of people on the programme having more than one long-term condition and 62% of participants claiming that the programme has enabled them to be more active.

The Holiday Hubs Programme has changed focus, this year, and delivered activities for children who are eligible for Free School Meals accessing both physical activity and lunch, free of charge. During 2021, over 11,000 attendances had access to free holiday provision and food. This was made possible through grant funding obtained through central government, as part for the Holiday Activity Fund – Overall £120k was obtained.

School Provision, where in 2021, the Youth Activators Programme had over 14,000 attendances on various opportunities to work with schools and offer children who need more support for physical activity, provision that may not have been accessible through traditional curriculum activities. The programme has also worked in partnership with British Cycling to offer children in primary schools more confidence on their bikes, with over 150 children accessing additional training.

Top Up Swimming has focussed on offering children who had no opportunity to swim, 25 metres lessons before leaving primary school, due to COVID-19 shutting facilities and families unable to afford those lessons. The Top Up Swimming programme offered intensive swimming tuition for 210 children, so far, to achieve their 25 metres and improve water safety skills.

And, finally, the Active Reach Programme, funded through the Tackling Inequalities Fund from Sport England, centred on people living in high deprivation areas, in Banbury, and engaging with the ethnic diverse community, through insight physical activity levels; have been adversely affected by the pandemic. Local groups were offered a range of different activities to suit their cultural needs, including boxercise, swimming, gym use, personal training, cricket, fencing and much more. The programme saw 324 individuals take part, with 61% being from an Asian or Asian-British background, 22% from Black-British or Black background. The programme has also built an excellent relationship with Banbury Mosque, where training has been put in place so members can deliver activities such as Swimming, Football, Cricket and personal training so that access to physical activity is sustainable. More exciting projects, such as, learn to swim, family and a bike library have grown as a result of all these programmes.

- 3.21 The Council has incurred costs and lost income during 2021/22 in relation to Covid-19 across all areas of the Council. However, there are some areas where there may be a prolonged change in behaviour. In particular lost income is forecast until the end of the financial year in car parking.
- 3.22 When the Council set its budget for 2021/22 the likely financial impact of Covid-19 was taken into consideration and budget provisions were made accordingly. The policy contingency budget of £2.112m includes funding for anticipated lost income and additional costs of Covid-19 in the 2021/22 financial year. In addition, the Council received £0.720m in Covid-19 grant and expects to claim £0.113m from the Sales, Fees and Charges compensation for the period to 30 June 2021. The forecast financial costs and loss of income associated with Covid-19 continue to be recorded and are shown in Table 3 as a memorandum item. These impacts are assumed within the overall forecast.

Environment and Waste	The forecast variance for Environmental Services for January is due to continued pressure within Car Parks. There is a £0.995m reduction in anticipated car parks income, (£0.616m of the deterioration is estimated to be due to the impact of COVID-19). There is also a £0.098m increase in national non-domestic rates and supplies and services. There is a delay in the delivery of £0.030m saving on fuel and vehicle maintenance for the parked up mechanical sweepers due to increased fuel costs.
Variation £1.159m overspend	
Variance to November's forecast £0.083m	
	The pressure within Waste and Recycling has been altered to reflect the start date of the food and garden waste roll out. The collection start date is confirmed as 1st March.
	The anticipated income is expected to see a £0.538m reduction, this is partially offset by (£0.521m) saving in employee costs due to non-recruitment to posts, refuse disposal charges and reductions in recycling gate fees plus other small variances across the service of £0.049m.
Planning & Development	Planning & Development are forecasting an underspend of (£0.079m) which is made up of (£0.075m) committed savings. Additional agency costs have been negated by increased income and various underspends totalling (£0.004m).

(£0.074m) further savings due to a reduction in the amount forecasted to pay over to OCC for joint staff. There is £0.079m non delivery of savings as the planned extent of the restructure was not possible following HR and Legal advice. However, this has been mitigated by underspends elsewhere.

An overspend of £0.137m within IT is due to pressures on the delivery of savings required of £0.097m which is due to actuals varying from estimates provided due to IT separation, small overspends across the service of £0.025m and COVID costs of approximately £0.015m due to supplier shortages and associated rising costs.
