

**Minimum Revenue Provision (MRP) Statement for 2022/23 (Revised)**

1. Where the Council finances capital expenditure by debt, it must put aside resources to repay that debt in later years. The amount charged to the revenue budget for the repayment of debt is known as Minimum Revenue Provision (MRP). The Council is required by statute to charge an amount of MRP to the General Fund Revenue account each year for the repayment of debt. The MRP charge is the means by which capital expenditure which has been funded by borrowing is paid for by council tax payers.
2. Legislation requires local authorities to draw up a statement of their policy on the annual MRP, for full approval by Council before the start of the financial year to which the provision will relate.
3. The Council is recommended therefore to approve the following statement:

For unsupported capital expenditure incurred after 31st March 2008, MRP will be determined by charging the expenditure over the expected useful life of the relevant asset in equal instalments, starting in the year after the asset becomes operational. MRP on purchases of freehold land will be charged over 50 years. MRP on expenditure not related to fixed assets but which has been capitalised by regulation or direction will be charged over 20 years unless the Council determines an alternative useful life to be more appropriate whilst continuing to be prudent.
4. For capital expenditure incurred in the provision of loans to third parties, MRP will not be charged until the Department for Levelling Up, Housing and Communities has completed its MRP consultation and published revised guidance. This is expected to be completed and ready for implementation by April 2024. Repayments of loan principal received by the council will be treated as capital receipts and used to reduce the CFR or avoid future additional borrowing, thus reducing future annual MRP charges.
5. Where the Council acquires an asset under a finance lease arrangement, MRP will be charged at an amount equal to the rent paid to reduce the balance sheet liability in year.
6. Capital expenditure incurred during 2022/23 will not be subject to an MRP charge until 2023/24.
