Supporting Information

3. Background

3.1 Workforce Data for Quarter 4 of 2023/24 has been produced and is available at appendix one of this report. HR monitor workforce data on a quarterly basis to identify emerging trends in staff wellbeing and organisational development. Comparative data is included, where possible, to assist CDC with benchmarking against the local government sector and, for sensitive information such as ethnicity, gender, and age against the make-up of the district and the UK overall.

4. Details

- 4.1 The workforce profile report at appendix 1 provides commentary and data for quarter 4 of 2023/24, as well as quarterly, whole year and end-of-year comparisons.
- 4.2 The report provides statistics on:

Apprenticeship information

4.3 At Personnel Committee in June 2023, it was requested that further data analysis be provided in relation to the sensitive information categories. Our collection of this data has vastly improved, and HR are continuing to encourage all employees to provide this data. CDC recognise this is not mandatory but are encouraging staff to share as widely as possible as all information helps inform future policies / programmes of support.

4.4 Following the implementation of the recruitment module within the HR/Payroll system, data around recruitment has also been included in the latest report. This is initially at a high level to provide details of applicants by EDI categories, in order to monitor that recruitment opportunities are reaching all communities within Cherwell, and that applicant pools are reflective of the district we serve. Initial data shows that communities are being reached and applicant pools are reflective but this will continue to be monitored.

5. Alternative Options and Reasons for Rejection

5.1 The following alternative options have been identified and rejected for the reasons as set out below.

Option 1: Not to complete workforce statistics, this option is rejected as workforce analytics will enable CDC to address challenges and efficiencies in the workforce more efficiently.

6. Conclusions and Reasons for Recommendations

6.1 Monitoring workforce data helps CDC to measure how well it is supporting staff - focusing on wellbeing and personal development so it can identify issues at the earliest opportunity to address them effectively. It is also helpful for some data sets to compare how we are performing against the rest of the local government sector, to ensure it remains an attractive employer and retains its staff.
