Section 2 – Infrastructure Delivery Plan Update, December 2020	
2.1 IDP Update Bicester Projects	
2.2 IDP Update Banbury Projects	
2.3 IDP Update Kidlington and Rural Areas Projects	

#### Context of IDP Update 2020 (01/04/2019 - 31/03/2020)

Infrastructure is an essential part of sustainable development supporting increased housing provision and economic growth, mitigating against climate change and facilitating improved quality of life within communities.

The Infrastructure Delivery Plan (IDP) contains the infrastructure required to support Cherwell Local Plan Part 1 adopted in July 2015 and it is set out in Appendix 8 of the Plan.

The IDP is a live document adjusted overtime to reflect changes in circumstance and strategies alongside the yearly monitoring of Local Plan infrastructure Policy INF1.

The IDP Update, December 2020 lists schemes for Bicester, Banbury, and Kidlington and Rural areas identified by infrastructure providers as supporting growth in the adopted Cherwell Local Plan Part 1. It follows from the previous update published in December 2019 and covers the Annual Monitoring Report (AMR) period: 1 April 2019 to 31 March 2020.

It includes adjusted phasing periods to reflect project updates as the plan period progresses and projects are completed: Short term 2017-2020, Medium term 2020-2025 and Long term 2025-2031.

The December 2020 IDP Update provides a renumbering of schemes following completion of numerous schemes to date. Although the IDP Update accompanies the AMR for the period April 2019 to March 2020, it contains all infrastructure progress known to date.

The schedule of infrastructure includes information on known schemes, their main aim, priority, phasing, delivery partners, costs, delivery status and links to the local plan policies including site policies. This helps monitoring the delivery of the Local Plan and guide infrastructure investment over the adopted Local Plan period to 2031. The information in the IDP could assist prospective developers identifying potential planning obligations but does not confine negotiations at development management level for specific development proposals.

**Section 1** of the IDP Update shows all known scheme completions and new projects since the first publication of the IDP as well as schemes which have undergone substantial changes. Schemes completed or added new in this monitoring period are shaded grey for ease of reference. The summary tables also show pipeline projects, those known to be at early project development stage. These pipeline projects are not part of the IPD schedule but could be included in future IDP updates subject to their progression as part of infrastructure providers' plans and programmes.

**Section 2** comprises the Bicester, Banbury, and Kidlington and Rural areas schedules updated to include changes to existing infrastructure schemes and new schemes to be delivered to 2031.

More detailed information on infrastructure provision will arise through the progression of new Local Plans and Neighbourhood Plans. This includes the Local Plan Part 1 Partial Review concerning Oxford's unmet housing need which was adopted in September 2020.

# Section 1 – Infrastructure Delivery Plan Update, December 2020 Summary Tables

In addition to providing infrastructure completions and a summary of new projects and deletions from the IDP, the tables below include pipeline projects known to be at early project development stage. These projects are not part of the IDP Update 2020 but could be included in future IDP updates subject to their progression as part of infrastructure providers' plans and programmes.

#### 1.1 IDP Update Bicester Projects

No.	BICESTER Projects	Main aim	Priority	Update
Project			Critical	
			Necessary Desirable	
Transport				
and movement				
(1)	East West Rail Phase 1 – Oxford to Bicester Village Station (formerly	Supporting economic growth and new homes with better access to the	Necessary	Completed in Autumn 2015
