

## **Appendix 1**

### **Implementation Plan for the introduction of HVO fuel**

- 1 Ensure the supply of HVO fuel has come from a sustainable source including a robust certification system
- 2 Work with the other main fuel user, Oxfordshire County Council, to ensure their vehicle can use HVO fuel
- 3 Gain confirmation from our vehicle suppliers that engine warranties will not be compromised by the change to HVO
- 4 Work with our fuel supplier to develop a delivery plan to change over from diesel to HVO fuel
