

Appendix 2

EXPLANATION OF REASONS FOR CASE CLOSURE

Enforcement Action (legal action taken on pie chart): When the Planning Authority has resolved to take formal enforcement action either through Committee authority or officer delegated powers.

Voluntary Action (sign removed; unauthorised use ceased; unauthorised works removed on pie chart): When the breach has been remedied by the voluntary action of the transgressor.

Planning Application: When a retrospective planning application or Certificate of Lawfulness (existing) is submitted as a consequence of investigations.

Permitted Development: When, following investigation, the alleged breach is permitted development in accordance with the GPDO.

Not Development: When, following investigation, development (in accordance with the definition in the T&CP Act) has not taken place.

No Further Action: When, following investigation, the breach is so minor that it would not be expedient to take any action or for the transgressor to put it right.

Unsustained Complaint (no evidence of breach): When, following investigation, there is no planning related work taking place or there is nothing taking place at all.

Note:

There are historic categories shown on the chart which are no longer being used such as 'miscellaneous'. These categories were originally introduced prior to the creation of the current categories (above). 'Miscellaneous' was a catch-all for many forms of potential unauthorised development.
