49 **Motions**

The Chair advised that four motions had been submitted. No amendments to any of the motions had been submitted. In line with the Constitution, no amendments were now permitted.

One Planet Living

As Councillor Sames was attending Council virtually, it was proposed by Councillor Wood and seconded by Councillor Broad that consideration of the motion be deferred to the 19 December 2022 Council meeting. Members agreed to the deferment.

Fracking

It was proposed by Councillor Hodgson and seconded by Councillor Watkins that the following motion be adopted:

“Fracking involves injecting water, sand and other substances into subterranean rocks to extract the gas that is trapped between them. It has caused water pollution in the US, earthquakes there and in the UK, massively pollutes the environment and water table and contributes to greenhouse gases when burnt.

We've already seen earthquakes in Lancashire, and Quadrilla were forced to pause fracking there in 2018 after the British Geological Survey showed that there had been 17 earthquakes in 9 days.

Fracking was banned in 2019 by the Conservative government amid these concerns. These concerns have not gone away.

We now have a Prime Minister who believes fracking is fine again and has reversed that decision. Inexplicably so when investment in renewables is both more cost effective and much better for the environment. It is inexplicable that the government should be considering such environmental and climatic destruction when we are facing a climate catastrophe.

Liz Truss has said developers will be given permission "where there is local support". Various sites across the country have been identified as possibilities, some are in Cherwell. As this Council declared a climate emergency in 2019, and published the Climate Action Framework in 2020, which includes statements on moving towards net-zero carbon by 2030, we, as a council, need unite behind that and be seen to be standing by it. We, the Labour Group, I know, are united on this and we call upon this Council to declare the District of Cherwell a NO FRACKING ZONE.”

No amendments to the motion having been proposed, the motion was debated as submitted. In the course of the debate, it was proposed by Councillor Woodcock that a recorded vote be taken, which was duly seconded by Councillor Moon. Having been proposed and seconded, a recorded vote was duly taken and Members voted as follows:

Councillor Andrew Beere	For

The motion was unanimously agreed.

Investment Zones

It was proposed by Councillor Middleton and seconded by Councillor Broad that the following motion be adopted:

“The government’s recent ‘mini-budget’ included plans for ‘investment zones’ within which the Chancellor said the Government would “get out of the way to get Britain building”.

The planning process for developers will be shortened and liberalised in these zones providing a more streamlined path towards planning consent. There are also plans to limit the ability for planning decisions to be overturned by the courts.

The government has also published plans for a ‘sunset clause’ on environmental protections introduced when the UK was in the EU. Environmental regulations such as Habitat Regulation Assessments will be scrapped in these zones, with no clarity as to how they will be replaced. This has been described as “an attack on nature” by the RSPB.

In addition, reports have suggested that the planned Environmental Land Management Scheme is to be scrapped. This would have paid farmers to improve nature on their land. There is now uncertainty that payment-by acre will be linked to any environmental measures.

Whilst Cherwell is not included in the initial list of ‘Investment Zones’ there will be an opportunity for all councils to express an interest in becoming one in the future.

This council therefore pledges that :

1. We do not support the ‘Investment Zone’ proposals and have no interest in becoming part of this scheme.

2. Environmental protection in Cherwell will be maintained at current or better levels regardless of any loosening of regulations
3. Local democracy will be upheld and respected in the planning process”

No amendments to the motion having been proposed, the motion was debated as submitted. In summing up, Councillor Middleton requested that a recorded vote be taken, which was duly seconded by Councillor Broad. Having been proposed and seconded, a recorded vote was duly taken and Members voted as follows:

Councillor Andrew Beere	Abstain
Councillor Rebecca Biegel	Abstain

The vote was lost and the motion therefore fell.

Water Sewage Transparency

It was proposed by Councillor Cotter and seconded by Councillor Mawson that the following motion be adopted.

“Earlier this year Thames Water welcomed Oxfordshire’s first regional river designated as bathing water in Port Meadow’s Wolvercote Mill Stream. It’s important that this success is built on by Cherwell District council to protect our waterways from natural and man-made pollution.

Only 14% of the UK’s waterways are in a good ecological condition, with water companies across the UK having discharged raw sewage into waterways 400,000 times in 2020 – more than 3 million hours of discharge.

In compliance with our climate change emergency motion, this Council has a duty to protect our natural environment. The government has so far failed to hold the water companies to account, so this council should work with Thames Water to increase transparency and minimise discharges into Cherwell’s waterways.

This Council therefore will :

1. Seek to establish a local strategy that puts sewage treatment at the heart of its local plan
2. Ensure that an evidence base is compiled that assesses the cumulative impact of sewage discharges so that this is factored into decisions made within the local plan.

3. Seek to better understand the cumulative impact of wastewater discharge including untreated sewage into our local rivers on wildlife and residents
4. From 2023, request that Thames Water clarifies which treatment works will be managing sewage from new developments and the likely impact on the number of sewage discharges into watercourses
5. Requests that planning officers include a specific section on the impact on watercourses in all relevant reports relating to major developments”

No amendments to the motion having been proposed, the motion was debated as submitted. On being put to the vote the motion was unanimously agreed.

Climate and Ecology

It was proposed by Councillor Walker and seconded by Councillor Middleton that the following motion be adopted:

“In 2019 this council recognised the importance of tackling impending ecological collapse by passing a climate emergency motion. We have also recently adopted the policy of One Planet Living.

The CLIMATE AND ECOLOGY BILL is a plan for a new UK law that addresses the full extent of the climate and nature crisis in line with the most up-to-date science.

The Bill is the only proposed legislation before Parliament that ensures a comprehensive and joined-up approach to the climate emergency. It was written by scientists, experts and campaigners and seeks to ensure that the UK plays its fair and proper role in limiting global temperatures to 1.5°C and has the cross-party backing of 150 parliamentarians.

It calls for urgent action from the Government to take into account our entire global carbon footprint by:

- Tackling the climate and nature crises together
- Doing our fair share to cut UK emissions to stay below 1.5°C of global warming
- Halting and reversing UK biodiversity loss by 2030
- Taking responsibility for the entirety of our global carbon and ecological footprints

To reinforce our commitment to tackling climate change, this council will show support for the CLIMATE AND ECOLOGY BILL by:

1. Taking into account the goals of The Bill when setting its own strategies, policies and targets.
2. Encouraging councillors to join the Zero Hour Campaign at www.zerohour.uk
3. Calling on all Oxfordshire MPs to support the CLIMATE AND ECOLOGY BILL when it is debated in Parliament”

No amendments to the motion having been proposed, the motion was debated as submitted. On being put to the vote the motion was lost and therefore fell.

Resolved

(1) That consideration of the motion "One Planet Living" be deferred to the 19 December 2022 Council meeting.

(2) That the following motion be adopted:

Agenda Item 8 (a), Written Questions

Question From: Councillor Ian Middleton

Question To: Leader of the Council, Councillor Barry Wood

Topic: Lord Harrington visit to Cherwell District Council

Question

“At the last full council meeting I brought a motion highlighting concerns that this council may face an upsurge in people presenting as homeless as a result of refugees not being able to secure private accommodation due to unmanageable reference requirements of private landlords. This is likely to negatively impact on our already overstretched homelessness service.

My motion called on you to make a case to the government that we and other councils will need a system of guarantees to private landlords and other arrangements in order to help refugees secure accommodation after the Homes for Ukraine scheme ends.

Instead of accepting that reasonable request you and your colleagues amended away that requirement and replaced it with an invitation to refugees Minister Lord Harrington to come to Cherwell and speak to us.

I and the rest of my group accepted this amendment pragmatically and on the basis of your verbal assurances that any meeting with the Minister would include members of all the parties represented on the council, in recognition that this is a cross-party, non-political issue.

However you reneged on that promise by only including Conservative members in the meeting with the Minister, excluding other members, all of whom will have to deal with this issue in their wards, myself included. Instead of seeking to tackle what could become a serious operational issue for this council, you chose instead to make it an opportunity for political grandstanding. Not only was that disrespectful to other members of the council, it was also counterproductive as we all had different experiences we could have related to the Minister.

Since the meeting there has been no formal report about the outcome of the meeting, save for a press release with vague references to discussions and a brief mention of the meeting having taken place in an internal memo.

Since that meeting Lord Harrington has resigned from the post of Minister for Refugees citing discontent with the way the government was handling these issue. It's unclear if he made any recommendations to government to address the

concerns raised in my motion or if these were discussed with him during the meeting.

This problem has not gone away. Fresh reports of these concerns are still being published [1]. Charities who were involved with the rematching service have also scaled back their support citing problems with the Homes for Ukraine scheme [2]. This can only add to the burden on councils.

It seems clear that the government is not going to tackle this very serious issue and is going to leave local authorities like ours to deal with this problem. If recent events are anything to go by, there are probably not going to be any significant additional resources made available to the council to tackle any increases in homelessness as a result, in fact quite the reverse. We need to tackle this issue seriously before circumstances potentially overwhelm us.

So could you please provide a full written report to ALL members on what was discussed with the minister during his visit, what assurances were given and how these have been implemented since.”

Response From: Leader of the Council, Councillor Barry Wood

Councillor Middleton, thank you for your question which provides me with the opportunity to update the chamber on the considerable activity underway to support the different asylum and refugee schemes in operation.

I am very proud of the work officers and our communities are leading, to respond to and make a success of the many different humanitarian crises we are presented with. I hope all Councillors have taken the time to read the regular updates provided in the Chief Executive's weekly emails - with specific reference to the comprehensive newsletter circulated on the 8 October.

I am sure you will agree Cherwell is going the extra mile in partnership with our communities and key stakeholders. We have a dedicated full time Community Liaison Officer who is working with Ukrainian guests and hosts to support them in finding employment, ESOL classes, and signposting them successfully to community organisations and partnerships to enable these newest of Cherwell residents to feel settled. There is a regular Wednesday afternoon surgery for anyone to drop into at our Community Pop Up space in Castle Quay to discuss and concern and be signposted to necessary support. A number of standalone events and job fairs have also been organised.

We are also conscious of the immense generosity of our residents who have opened their homes and I would want to publicly thank them for the role they are fulfilling in being such a needed and necessary resource.

The visit by Lord Harrington was specifically planned to enable him and thus the Government to understand the situation on the ground – to go beyond the words

always heard from politicians and senior officers in the many District Councils' Network (DCN) / Local Government Association (LGA) national calls we attend.

The officer team arranged for Lord Harrington to meet Ukrainian families and sponsors and also families with us from Afghanistan. This was powerful – they did the talking and explained what the process 'felt' like to be part of and what were the challenges and extra help needed. We wanted to put the human element at the heart of the short time the minister had with us - he and his officials left with a better understanding of the human impact and the challenges we are facing.

I am a member of the DCN Councillor executive, and we are very active in lobbying central government – this visit was a way to bring our words to life. This was a visit for 'our guests' to speak for themselves and not for the politicians. This is why we limited the number of politicians in attendance. I'm aware you requested there was cross party representation, but this wasn't agreed to for the reasons I've just given, it was about our guests, not about us. I attended with the Deputy Leader and Portfolio Holder in order that we also better understand the reality of the situation and thus as the administration support our officer team with the challenges ahead as well as feeding back to other elected members. These decisions were not based on politics but genuinely trying to maximise the value of the visit for our communities.

We fully recognise the significant challenges we are facing in supporting the many schemes - as in the motion to Full Council one of the concerns is the number of schemes and thus ensuring we have parity in the response provided to them all.

Key challenges are lack of a housing supply and competition for it, both from our own residents and the number of refugee schemes. Housing supply and its cost are a major challenge for Cherwell, and this is where we need to focus our efforts. There may well be an issue with private landlords requesting references, but it's not our guests or our major concern, the overall availability of housing is. We have been working as a system in Oxfordshire with partners across authorities to put processes in place to support all refugees moving on into independent accommodation. We also need to consider the impact of asylum requests (hotels) and dispersal accommodation – the latter played out in the media with small boat arrivals on our shores.

We champion the critical role played by District councils and seek to influence the decision makers on both process and funding.

I hope the chamber will join me in supporting our officer team with the work they are doing and also recognising these sad circumstances impact all our partners - local health services, schools and police. In Oxfordshire we have been recognised and commended for our joined-up approach to this agenda and I hope the chamber can put politics to one side so we can work together to support those who need us.
