

Wednesday 1.3.17

Dear Sir,

On returning home from a weekend away I was somewhat surprised to see "Munchies" food shack near the top of Bretch Hill. (nearly opposite Bramber Close)

I am concerned that such an enterprise should be placed in a housing & built up area. With an advertising sign fastened to the end of the road "Bretch Hill" sign on the Stratford Road, there is certainly not the parking for anyone turning off that main road. to eat at such a venue.

PTo

The food shack is also placed near a chicanery, which means that there is already need for caution in that area.

Finally I am concerned about the amount of ensuing litter, particularly if the students at N.O.A. decide this is a good venue for lunch — not a particularly healthy one at that.

I trust that you will give this placement some thought, as I do not believe this is a safe or suitable venue for such a venture.

Yours sincerely

REF VICTORIA FALKINGTON

3 March 2017.

Dear Sir/Madam

Why on earth do we need a burger van on the side of the road just past a chicane on a respectable estate.

Who do you think it is going to sell its burgers to!

Bold and blue garish it is an eyesore would you like this on your estate outside your window I definitely oppose the consent to trade

Yours Sincerely

Charlotte Johnson

Dear Madam/ Sir,

A Munchies burger van has appeared at the end of our street, they have set up tables and chairs as well as putting up advertisement for their business on our street sign. I strongly object to this van being set up here as we have enough disruption from the noisy and chaotic building site. Also there are already many parking problems without having the issue of this new businesses customers adding to the situation. Lastly, i am very nauseated by the smell.

How can a burger van park up and start doing business without any consultation with the residents who live here?

Many Thanks, I an eagerly awaiting your reply,

Charlotte Johnson

Subject: Burger van at Bretch Hill

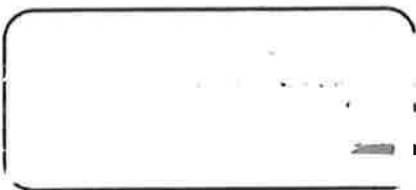

Good afternoon, I wanted to raise an objection on behalf of my tenants at _____ regarding the siting of the burger van at the top of Bretch Hill. The burger van is sited within view of the property and is not attractive to look at.

My tenant has said that the connection and disconnection of the power supply in the morning and afternoon are noisy and causes a disturbance in a generally quiet area, and that the traffic is getting to be tricky where lorries, vans and cars are stopping to use the van as this necessitates overtaking and disturbs the flow of traffic at peak times.

The food served by the van is not something we should be promoting to younger generations, and the location in proximity to North Oxfordshire Academy is not ideal.

We object strongly to the location of this van.

Any other queries, please contact me.

Regarding the application For a Victoria Elkington and her Burger Van. There is no need for a Burger Van in a Residential area, Especially one that is such an eye sore. Where it is positioned the road is already busy with people going through the estate. If it does become a success, the safety issue really needs to be looked at, cars/vans etc will be parked everywhere, especially at school time, traffic will back up. There is a problem with litter in the area as it is, without having a burger van to add to that problem. I have no problem with anyone who wants to make a living, But the Possition of the van, state of the Van, Safety issue as to where the Van is, There really is no need for the Burger Van in this position.

Subject: Burger Van in Bretch Hill Banbury

Dear Cherwell Council

We are writing in response to the notification about an application for street trading.

We would like to object to the burger van that has applied for a license to trade on Bretch Hill, in Banbury

They arrived on 24th Feb and set up, starting trading on 27th Feb, prior to getting a license, which is rather presumptuous. They also put signs up at the top of Bretch hill.

Our concerns are it is a busy road already particularly now with building works and traffic lights going up and there is no capacity to cope with trade from the burger van. There is no where to park when buying burgers.

Our other concerns is the rubbish that this will generate, as I'm sure its been set up to accommodate the workmen from the building site. The site itself is already generating rubbish which is blown all over Bretch Hill and down our road Bramber Close, we do not need anymore.

Yours sincerely

Subject: Licensing Application Objection

I write to raise an objection to the application by Victoria Elkington to locate a burger van on Bretch Hill. The objection is based on the following:

The location is an area of high social deprivation. Encouraging children to eat 'junk food' of the kind sold by the van is exacerbating the problem of poor nutrition in local children and undermining the good dietary choices available at the academy. Children have been seen eating from this van first thing in the morning when a breakfast club is available free of charge at the academy selling proper breakfast foods.

Since the van has chosen to locate itself unlicensed on Bretch Hill there have been numerous complaints regarding litter, wrappers and smells which are impacting on the life of local residents.

It is highly inappropriate for food vendors of this kind be located in residential streets in close proximity to a school.

Yours sincerely

Subject: Sandwich Van Bretch Hill

Categories: Orange Category

Good morning,

I would like to express my views with regards to the sandwich van that is now on Bretch hill.

Firstly I would like to say a massive well done to a local business provide to having the get up and go and to try and make a business run during this challenging economic time.

In my opinion it has been really nice to see a local business in our community where we can all go to I feel all the big businesses have started to really hit local businesses and it's nice to see a highly driven woman.

As of yet I have not seen any congestion or parking problems due to this business and I have also seen no litter nor has there been any excessive noise.

The food is very nice as well as a healthy options including fruit. As we are aware it is a main route for children to and from school and the location of this business gives children to get something decent inside of them rather than junk from the shop which I feel is important.

It is also in a great location for the ongoing building which will be here for a considerable amount of time, one of the benefits will be less traffic heading through town or to McDonald's / Tesco where we already huge congestion problems, this gives builders an opportunity to walk from site and get food rather than driving through our town.

I have monitored this van for the few days it has been there and I feel it has been really nice to see and I thank you for giving our local businesses the opportunity to continue.

It was very disappointing to see the van closed today so I hope that you allow this lady the opportunity to keep open and provide to our community.

Kind regards

Charlotte Johnson

Subject: Victoria Elkington: Munchies Hot & Cold Food.

To Whom It May Concern.

I have received a notice in regards to V Elkington: Munchies food van trading in a layby situated directly opposite to my home at

I would like to express feedback regarding this:

I am a long standing home owner in Bramber Close & I welcome Munchies to trade in this location.

Victoria's presence is very warming to our community & many of my neighbours have paid her a visit to chat or to give her some much deserved encouragement!

Victoria is very conscious & respectful of all the tenants in this & surrounding area's. It's especially nice to see her bringing the people in the area out of their homes to buy food or just to have a general catch up.

There is no disruption to mine, or any other home in regards to parking, due to off road parking alongside my house, to which all customers have been especially respectful when stopping by to purchase food.

I have absolutely no subject of concern with Munchies location.

I would appreciate if my feedback would be taken into consideration to support Victoria within her application for licensing.

Kind regards

Subject: Burger van bretch hill Banbury

Hi

I would like to say that I think it's a great idea where this burger van is situated at top of bretch hill, I work in Tysoe and past here every morning , so I can pick up breakfast for our staff. As all other takeaways like this are situated on other side of town, the food is fantastic. So hope they stay there as we would be regulars and like to support local businesses.
