

Appendix 3 – Table of consultation responses

Respondent	Comments	Officer Response
Balscote Parish Council	<p>Wroxton & Balscote Parish Council would like to express their gratitude for having the opportunity to comment on this subject. In general the PC applauds the proposal to alter the outer boundaries to fit in better with the village boundary and treelines. Please note the Parish Council's comments for consideration, inclusion of the area on the SW edge of the village between the Hedges west side gardens and the trackway from Shutford Road parallel to these. The area is currently unused and overgrown and something of an eyesore at the approach to the village.</p>	<p>Officers acknowledged and accepted the comments and amended the boundary accordingly.</p>
L Cotton	<ol style="list-style-type: none"> 1) Happy with the changes 2) Boundary extended Shutford End on exit of the village 3) Happy with Local Heritage assets 4) Priorities include masonry/wall maintenance in keeping and concern about white framed conservatories 5) No additional protection suggested 	<p>Officers acknowledged and accepted the comments and amended the boundary.</p>
D Stead	<ol style="list-style-type: none"> 1) A good presentation with no Major surprises 2) Boundary to include Third Acre bungalow. Illogical to exclude when all others are included. 3) Local Heritage assets, Good choices 4) The priorities are to maintain the high standards of the village 	<p>A further review of the boundary was completed by officers and it was considered that taking into account paragraph 191 of the NPPF to include Third Acre would not be appropriate and would not fulfil the requirement to ensure sufficient special architectural or historic interest.</p>

Christine Crawley & James Murphy	<p>There is a little plot of land on the last southerly point in the village, due south of The Hedges cul de sac. Given that in the recent past there have been attempts to seek permission to develop this plot for housing, it would seem natural and proper to include it within the red lines of the Conservation Area.</p> <p>Properties are the control of building developments and building styles/aesthetics.</p>	Officers acknowledged and accepted the comments and amended the boundary.
