

Appendix 3: Table of consultation responses

Respondent	Comments	Officer Response
Somerton Parish Council	<p>1) Useful and interesting summary of local history.</p> <p>2) Uncertain why the whole of the village is not included rather than having an artificial exclusion zone.</p> <p>3) Areas outside the conservation not subject to the same controls.</p>	<p>The whole village is not included because all areas need to be justified as being of special interest. A large section of the central part of Somerton is modern infill.</p> <p>Development outside of the conservation area boundary is likely to be considered to impact on the setting and will be considered accordingly.</p>
Neil and Primrose Clare	<p>Objection to inclusion of their property within conservation area</p> <ol style="list-style-type: none"> 1. Lack of a consistent approach across the village. 2. Listed structure (canal bridge) being taken out of the conservation area, and no listed buildings added. 3. Structures and buildings which are of historical value being excluded. 4. Publicly accessible historic and architectural structures being excluded. 	<p>The property is included because it is a barn conversion. The adjoining barn (which is in the same ownership) is a modern construction and has been removed from the proposed boundary.</p> <p>There is a consistent approach across the village. The removal of areas (included listed canal bridge) are due to the designation of the Oxford Canal Conservation Area in 2012.</p> <p>Many of the historic structures mentioned are too far removed from the conservation area but have been</p>

		included as local heritage assets.
