🌱 You will soon be able to have your say to help shape policies on the future development of homes, workplaces, and infrastructure in north Oxfordshire.

Our Local Plan is the key document that guides development in the district. Work is underway to create a new plan, covering the period to 2040.

On Monday, the council Executive endorsed an options paper that will be the basis of a consultation that opens at the end of the month.

It doesn't propose new sites for development. Instead it asks you to have your say on what the themes of future policies should be.

Creating a new Local Plan is a chance to design policies on the climate emergency, healthy lifestyles, biodiversity, town centres, and rural housing.

Lots of you had your say about the future of our high streets as part of our previous Local Plan consultation.

Choices we make about what town centre buildings can be used for could influence this, as we prepare our next Local Plan.

Do you think we should protect key shopping areas in our town centres, or should we maximise the flexibility that is available to us and allow different types of development?... [See more](#)

As we develop a new Local Plan, key choices we make about employment sites could shape future job prospects in our area. We'd like to hear your views.

Compared to the rest of Oxfordshire, we have a high number of jobs in retail, leisure and hospitality.

In our previous Local Plan consultation, people said that agriculture and tourism should be recognised as key parts of the local economy. They also asked for policies to promote training, apprenticeships, more skilled jobs an ... See more

🌍 In 2019 we declared a Climate Emergency and pledged to be carbon neutral by 2030.

The environment is therefore a key theme of the new Local Plan we are writing.

In our previous Local Plan consultation, people shared their views on tree planting, retaining green spaces, generating clean energy and how we may encourage retrofitting of existing housing stock.

Our current Local Plan consultation calls for your views on topics including:

- If we should set sustainable design and construction standards above those required by central government
- Sustainable energy generation
- The design and location of EV charging points

Have your say at <https://letstalk.cherwell.gov.uk/cherwell-local-plan-review>

A Local Plan can help shape how much housing development is directed at rural areas - and we are currently calling for views to help us shape our new plan.

Government policy requires us to promote sustainable development of new housing, especially where it will support local services and rural communities.

In our previous Local Plan consultation, people expressed different views about how housing should be allocated in rural areas. But they tended to agree that a review of how villages are categorised for development was needed.

Do you think we should:

- 1) Limit development in the rural areas to that required to meet local needs, or
- 2) direct proportionately more development to the rural areas over the plan period to meet wider district needs?

The consultation closes on 10 November and is a chance to have your say on this and a number of other topics.

Have your say on these and much more at
<https://letstalk.cherwell.gov.uk/cherwell-local-plan-review>

A final reminder that the current stage of consultation on our new Local Plan closes tomorrow (11.59pm on Wednesday 10 November).

Councillor Colin Clarke, Lead Member for Planning, said: "We are consulting on an options paper that lays out the big choices that we will have to make when we write our next Local Plan. That plan will be a cornerstone of local policy, setting out where future new homes and infrastructure may be built, and defining key elements of our response to the climate emergency and COVID."

Help shape district's future

Home Latest news **Help shape district's future**

You will soon be able to have your say to help shape policies on the future development of homes, workplaces, and infrastructure in Cherwell.

Published: Wednesday, 8th September 2021

Our adopted Local Plan is the key document that guides development in the district. Work is underway to create a new plan, covering the period to 2040.

At a meeting on Monday 6 September, our Executive gave the green light to an options paper, which will be going out for public consultation from 29 September.

The options paper doesn't propose new sites for development or set targets for the number of homes that may be needed. Instead, it asks people to have their say on what the key themes of future planning policies should be.

Our current Local Plan is now five years old and there is a new national and local context emerging. The Local Plan review is a chance to develop new policies for matters including: the climate emergency; creating a built environment that promotes healthy lifestyles; achieving net increases in biodiversity; supporting town centres; and rural housing.

The new Local Plan is intended to be a key strategy to drive the district's recovery from pandemic

paper includes a place-based discussion for Banbury, Bicester, Kidlington, Upper Heyford and the rural areas.

The consultation will start on 29 September and run for six weeks.

Local Plan Options Paper is now open for consultation

Published: Wednesday, 29th September 2021

The big issues and choices that will shape north Oxfordshire for years to come have been sketched out in a key document, ready for residents to have their say.

Our Local Plan options paper goes out for public consultation today, Wednesday, 29 September.

It is a chance for people to voice their views on a vision of the future of the district and is part of the process of writing a new Local Plan.

The plan will,

- address needs and opportunities for the future
- set a base for conserving and enhancing the environment and mitigating and adapting to climate change
- support well designed and healthy places

The paper is open for comments until 10 November 2021.

We want to hear people's views on:

- the draft vision for the future and how this could be delivered
- proposed options for new planning policies
- local profiles for Banbury, Bicester, Kidlington, Upper Heyford and our rural areas, as a way of promoting discussion of their futures.

Residents, businesses, and other local stakeholders can all have their say through our new consultation platform at letstalk.cherwell.gov.uk/cherwell-local-plan-review

Dear Colleagues

Please find below my update on a range of issues that will be of interest to you or your residents.

As ever, we rely on you to **forward this update to your councillors** and encourage them to disseminate it to any group or individual in your parish who might benefit from the information.

There are three requests in this week's bulletin for you to feed back to us about priorities for your communities. Please do take the opportunities to tell us about your COMF spending plans, your village facilities and your climate emergency ambitions.

Best regards

Steve Jorden

Corporate Director for Commercial Development, Assets and Investment, CDC and OCC

Containing Outbreak Management Fund – Your Money, Your Move.

Each of the 79 parishes in Cherwell has now received a notification of its 'COMF' allocation and details of how to request payment.

Please think creatively about how you could make best use of your funding, and engage with the groups and organisations that are supporting your residents or providing local facilities.

Due to Government time limits on this funding, we need your payment requests **no later than 26 March** (once paid out though, you can use it to carry out your actions over the course of the 2021/22 financial year).

If you have any queries or want to discuss ideas, please get in touch with Lydia Avann via parishes@cherwell-dc.gov.uk or 01295 221861

Local Plan Review – Village Services Questionnaire

Last week each parish will have received a Village Services Questionnaire from our Planning Policy team. It is the next stage of the Cherwell Local Plan Review 2040 and follows on from last Summer's Community Involvement Paper consultation.

It is important that planning policy is based on up to date information. This questionnaire is a fact-finding exercise about the facilities, opportunities and constraints in each village.

Responses are required **by 31 March**. If you have any queries please contact Yuen Wong (yuen.wong@cherwell-dc.gov.uk) or the Planning Policy Team (planning.policy@cherwell-dc.gov.uk).

Climate Emergency Survey – Interviewees Required

Cherwell District Council has commissioned 6 degrees Student Consultancy to conduct a piece of work looking at the attitudes, ambitions and challenges of parish councils around the climate emergency.

We are keen to interview parish councillors to understand these topics in greater detail from a parish perspective. Your views will help shape a report from the student consultants which will also include a number of case studies on different actions parish councils and similar organisations have taken.

If you are interested and have availability over the next few weeks please contact Sam Thomas, Climate Action Officer sam.thomas@cherwell-dc.gov.uk to arrange a telephone meeting.

Covid-19 – Local Infection Rates and Shielding List Expansion

In Cherwell there were 124 new cases in the seven days up to 12 February, a 44 per cent decrease from 223 the previous week. This is equivalent to a weekly rate of 82.4 per 100,000 residents. This is the first time the weekly rate has dropped below 100 since early December. You can access a [COVID-19 dashboard](#) on the county council's website for daily COVID-19 statistics.

Last week the government announced a national expansion of the number of individuals being asked to shield because they are considered Clinically Extremely Vulnerable (CEV) to COVID-19. This follows the development of a new model at Oxford University which looks in detail at the medical and demographic factors of those previously most affected by the pandemic. These individuals will now be prioritised for vaccination alongside those already considered CEV and will be eligible for statutory sick pay and prioritisation for online shopping slots.

Elections 2021 – Call for Support

Preparations are well underway for the elections that will take place in Cherwell on 6 May 2021. Ensuring the whole process is safe for our staff, electors and candidates is at the forefront of our planning.

We need extra staff to work at polling stations and at the count. Information about rates of pay and how to apply is available on the CDC website: [Elections Staffing](#)

We would be extremely grateful if you can share this opportunity as widely as possible.

Local Digital Mapping and Data Resources

The [‘My Neighbourhood’](#) page on CDC’s website provides all sorts of useful mapping and information, including planning history and conservation areas, planning policies, listed buildings, tree preservation orders, councillors and local services.

Newly added is the Cherwell Story Map, our visual and interactive tool showing what is going on in local communities around health and physical activity. The map will be one of the tools helping us to understand communities better, so that collectively with local residents we can plan for a healthy future and ensure communities thrive.

CDC Council and Committee Meetings

Virtual meetings currently scheduled for the coming month are:

- Full Council at 6.30pm on Monday 22 February
- Executive Committee at 6.30pm on Monday 01 March
- Budget Planning Committee at 6.30pm on Tuesday 09 March
- Planning Committee at 4.00pm on Thursday 11 March
- Overview & Scrutiny Committee at 6.30pm on Tuesday 16 March
- Accounts, Audit & Risk Committee at 6.30pm on Wednesday 17 March

To view a CDC council meeting– go to the [Browse Meetings Page](#) of our website, select the relevant committee and the meeting date. Click on “View the webcast” on the agenda webpage.

Staying Up To Date

For the latest information about the council's response to Covid-19 regularly check your emails, visit the [council website](#) and follow our social media accounts.

Appendix 20
Cherwell Parish Bulletin
Email (23-08-2021)

To: All Cherwell Town Councils, Parish Councils and Parish Meetings – 23 August 2021

Dear Colleagues

Please find below the latest update on issues that will be of interest to you or your residents. This time around, most of the items are about current or forthcoming planning consultations.

As ever, please do forward this update to your councillors and encourage them to forward to any group or individual who might benefit from the information.

The next scheduled Parish Bulletin will be on 27 September.

Best regards

Claire Taylor

Progress on Cherwell Local Plan Review

As you may have heard at the Parish Briefings earlier in the summer, the second stage of consultation on the Cherwell Local Plan Review is the 'Options Paper'. The Options Paper is currently scheduled to go to Executive for approval on the 6th September, the agenda being made public a week before the meeting.

Subject to member approval, the Planning Policy Team will be in touch in the next couple of weeks regarding arrangements for consultation, including briefings for town and parish councils. It is hoped that one of these will take place before the start of formal consultation.

Development Briefs – Sites near Yarnton and Kidlington

A focused consultation is currently underway seeking views on two development briefs for two sites in the south of the district.

The two sites are known as Land West of Yarnton and Land at Stratfield Farm, Kidlington. Development Briefs are documents that set design principles and guidelines for new development and include illustrative layouts. The development briefs will be used to inform future applications on these sites and will be used by the council as an important reference when it considers those applications.

The two sites are allocated for development in the Partial Review of the Local Plan. The start of consultation had been delayed to allow for the decision to be issued by the courts that had been made in respect to the Partial Review. This was issued on the 30 July 2021.

There are 4 further briefs in the south of the district that will be consulted on over the autumn and winter.

The consultation runs between the 11 August and 22 September 2021 covering a period of 6 weeks. Further details about the consultation and copies of the briefs are available via <https://www.cherwell.gov.uk/planningpolicyconsultation>

Oxfordshire Plan 2050 Consultation

Comments are being sought on a consultation document containing policy options for the Oxfordshire Plan 2050.

The consultation is grouped under five themes: addressing climate change; improving environmental quality; creating strong and healthy communities; planning for sustainable travel and connectivity; and creating jobs and providing homes. The document is also seeking views on spatial strategy options- how much development is needed countywide and how should it be distributed?

The Oxfordshire Plan team are holding a series of webinars (starting on 25 August) to present the consultation paper and provide the opportunity for questions. The consultation period extends to Friday 8th October and further details can be accessed on <https://www.oxfordshireopenthought.org/>

Oxfordshire Infrastructure Strategy (OxIS) Consultation

The last day of the six week Oxfordshire Infrastructure Strategy (OxIS) consultation will be Tuesday 31 August.

OxIS provides a framework for Oxfordshire County Council, Oxfordshire's five planning authorities and key partners to establish strategic infrastructure investment priorities as well as potential opportunities for funding and delivery.

There are five themes - environment, health, place-shaping, productivity and connectivity

There are clear links to the Oxfordshire Plan 2050, with OxIS setting out how to prioritise and deliver against the important infrastructure strand of the Oxfordshire Plan. Partners and the public are encouraged to take part in both consultations.

The consultation can be accessed via:

<https://www.oxfordshireopenthought.org/oxfordshire-infrastructure-strategy-oxis>

Covid-19 Local Infection Rates & Testing

In Cherwell, there were 437 cases in the seven days up to 13 August, an increase from 348 new cases in the previous week. This is equivalent to a weekly rate of 290.4 per 100,000 residents.

For Cherwell, this week cases in the over 60s have increased to 41 cases (up from 29 in the previous week). You can view the latest figures on the county council's [COVID-19 dashboard](#).

If you have COVID-19 symptoms, you must self-isolate immediately and [book a symptomatic \(PCR\) test](#) at one of Oxfordshire's five symptomatic testing sites as soon as possible. Do not attend a symptom-free site or use a lateral flow device. More information is available on OCC's [symptom testing pages](#).

CDC Council and Committee Meetings

Meetings currently scheduled for the coming month are:

- Executive Committee at 6.30pm on Monday 06 September
- Overview & Scrutiny Committee at 6.30pm on Tuesday 07 September
- Planning Committee at 4.00pm on Thursday 09 September
- Budget Planning Committee at 6.30pm on Tuesday 14 September
- Accounts, Audit and Risk Committee at 6.30pm on Wednesday 22 September

To view a CDC council meeting– go to the [Browse Meetings Page](#) of our website, select the relevant committee and the meeting date. Click on “View the webcast” on the agenda webpage.
