3.0 Report Details

- 3.1 The Council's forecast outturn position for 2023/2024 is an overspend of £0.338m shown in Table 1. There is slight change in the forecast from the previous update of £0.048m mainly due to an increased forecast within Property Services. For further detail of the major variances please see Table 4.

The Council notes that national pay negotiations are ongoing and that the employers have made an offer to the Trade Unions which has not been accepted. The forecast for this month only includes the current interim pay award which has been allocated at a local level. Once the outcome of the national pay negotiations has concluded and a local pay award agreement reached this will be factored into the forecast for 2023/24 and the MTFs for the Council.

Table 3: Budget compared with Forecast

The graph below shows the change from June’s forecast to July 2023 compared to budget.

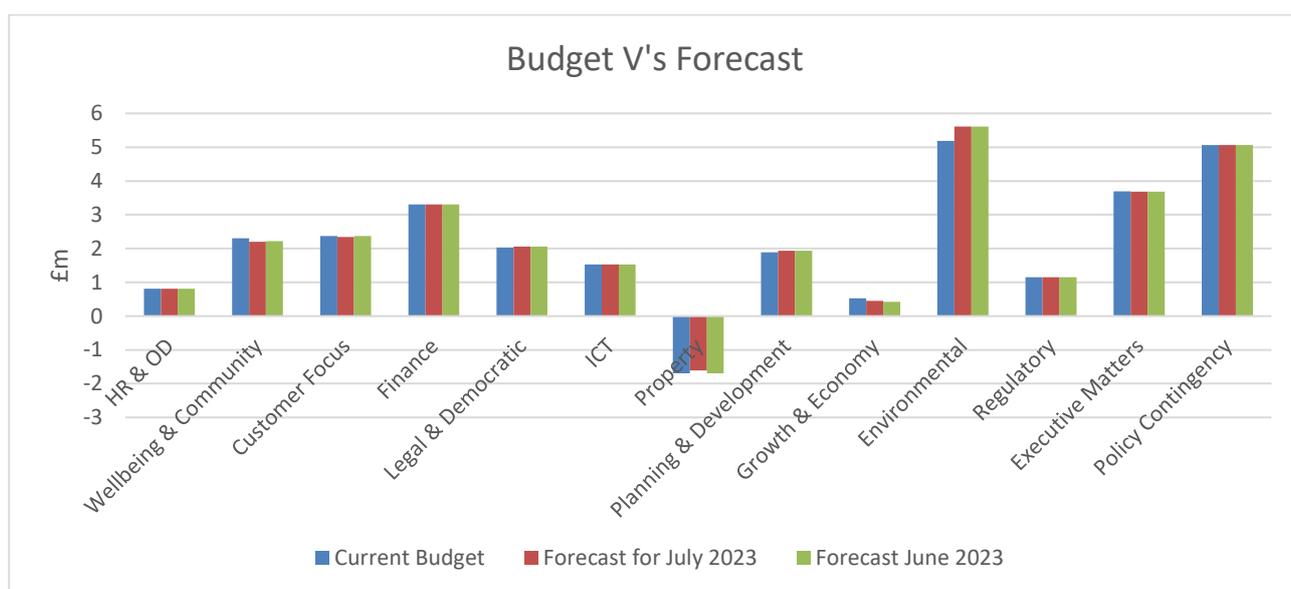

Table 4: Top Major Variance:

Service	Service	Current Budget	Variance	% Variance
Environmental Services	Waste & Recycling	3.230	0.421	13.0%
	Total	3.230	0.421	

Waste & Recycling Variance £0.421m (May Variance over spend £0.320m): -

The forecasted pressure of £0.421m within Environmental Services is primarily due to changes in the global market for recycled materials falling as recycling processing costs have increased. Commodity prices are currently very volatile and the forecast could change during the year. The Council holds monthly meetings with the recycling reprocessor and monitor individual commodity prices on a monthly basis.

Staffing pressures and agency costs have added a further pressure to that reported last month, which are being closely monitored and managed. The service is reviewing its staffing requirements to minimise fluctuations in resources in the waste service area.
