Section 1: Summary details

Directorate and Service	Wellbeing and Housing – Housing Services
Area	
What is being assessed (e.g. name of policy, procedure, project, service or proposed service change).	Cherwell District Council Housing Strategy 2025-30
Is this a new or existing function or policy?	Revised policy to cover existing service function
Summary of assessment Briefly summarise the policy or proposed service change. Summarise possible impacts. Does the proposal bias, discriminate or unfairly disadvantage individuals or groups within the community? (following completion of the assessment).	The Housing Strategy is the overarching policy document that informs housing services within the district and provided by the Council. It covers local and national context issues and how the housing needs required by the district may be met over the coming years. It also outlines some new initiatives and policy direction The Housing Strategy should not affect any group directly in terms of bias or disadvantage. The Strategy looks at factors that affect the provision of housing and outlines approaches to tackle them. However, factors that affect housing could be as a result of potential underlying bias or disadvantage within wider society. Any of these wider factors that may be present are not tackled through this document.

Section 2: Detail of proposal

Context / Background

Briefly summarise the background to the policy or proposed service change, including reasons for any changes from previous versions.

The previous Housing Strategy covered the period from 2019-2024 and a new housing strategy should be produced every five years. This is to address changes in demand or supply pressures and other contextual factors within that period.

The previous strategy therefore addressed and set targets for the context as was in 2018-19 and that could be foreseen in the coming years. There have been significant changes in the period from 2018-19 to today, including COVID 19 and cost of living pressures from high inflation, high interest rates and energy prices. Additionally, the resettlement schemes have widened the groups and cohorts of people that require housing assistance. There have also been changes in legislation or proposed changes that affect the housing services that are provided by the Council.

The new strategy therefore acknowledges achievements made in the previous 5 years by the Council but also outlines the new priorities for the coming 5 years.

Proposals

Explain the detail of the proposals, including why this has been decided as the best course of action.

The new strategy proposes 3 overarching themes that seek to address the most pressing housing issues identified by the contextual review. These are, broadly;

- The supply and affordability of housing
- Issues relating to Private Sector Housing, including quality of accommodation and net zero
- Rising homelessness and the vulnerability of those requiring housing support

Evidence / Intelligence

List and explain any data, consultation outcomes, research findings, feedback from service users and stakeholders etc, that supports your proposals and can A public consultation to gather feedback on the themes outlined within the Housing Strategy and overall aims will be carried out prior to implementation. Stakeholders will have the opportunity to contribute to this consultation.

Consultation responses will be considered and further revisions to the Housing Strategy may be made in accordance with the response received.

help to inform the judgements you make about potential impact on different individuals, communities or groups and our ability to deliver our climate commitments.	The data gathered and relied upon for the production of the housing strategy has all come from published documents that are publicly available, such as the Housing and Economic Needs Analysis or are compiled from government data sources, such as the Office for National Statistics. Some market data to illustrate the housing market locally, such as Zoopla, has also been used to allow comparisons.
Alternatives considered / rejected Summarise any other approaches that have been considered in developing the policy or proposed service change, and the reasons why these were not adopted. This could include reasons why doing nothing is not an option.	The following alternative options have been identified and rejected for the reasons as set out below. Option 1: Not bring forward a new Housing Strategy. This is rejected as it is one of the key statutory documents for the Council to produce and review.
