agreed report.					
Report of	Assistant Director Planning and Development, David Peckford				

# Purpose of report

To keep Members informed about planning appeal progress including decisions received and the scheduling of public inquiries and hearings for new and current appeals.

# 1. Recommendations

The Planning Committee resolves:

1.1 To note the position on planning appeals as set out in the report.

## 2. Executive Summary

- 2.1 This report provides a monthly update regarding planning appeals, including new appeals, status reports on those in progress, and determined appeals.
- 2.2 The report sets out the main issues of the appeal and, where determined, the decision is summarised.

Implications	Commentary
Finance	Whilst there are no direct implications arising from this report it should be noted that the cost of defending appeals can be costly, with additional risk of significant costs when exceeding the 10% Quality threshold.

## **Implications & Impact Assessments**

	Thia	hoo	maar	t it has been people and to call upon the appeals		
	This has meant it has been necessary to call upon the appeals reserve to mitigate the overspend on spend to date. Any further

# Supporting Information

## 3. Background

- 3.1. When a planning application is refused, the applicant has the right to appeal within six months of the date of decision for non-householder appeals. For householder applications the time limit to appeal is 12 weeks. Appeals can also be lodged against conditions imposed on a planning approval and against the non-determination of an application that has passed the statutory time period for determination.
- 3.2. Where the Council has taken enforcement action, the applicant can lodge an appeal in relation to the served Enforcement Notice. An appeal cannot be lodged though in relation to a breach of condition notice. This is on the basis that if the individual did not agree with the condition, then they could have appealed against the condition at the time it was originally imposed.
- 3.3. Appeals are determined by Inspectors appointed by the Secretary of State and administered independently by the Planning Inspectorate.
- 3.4. Monitoring of all appeal decisions is undertaken to ensure that the Council's decisions are thoroughly defended, and that appropriate and defendable decisions are being made under delegated powers and by Planning Committee.

#### 4.10 Appeals Results

#### 23/02865/F – Slatters Barn, Epwell Road, Shutford, Oxfordshire OX15 6HE

Installation of two shepherd's huts for use as holiday lets & construction of a driveway to the shepherd's huts.

#### **Appeal Dismissed**

The Inspector considered the main issue to be whether the appeal site is a suitable location for the development.

The Inspector noted the site's location, away from the nearest village, Shutford, and that Epwell Road has a distinctly rural character. The Inspector noted that there are no local bus or train services in close proximity to the site and that there would be a high dependency for visitors on the use of private vehicles, and that there was nothing to suggest the development was necessary to meet local business or community needs. The Inspector noted no compelling evidence to indicate that walking or cycling routes were of particular interest, and no detailed evidence of unmet demand for new tourist accommodation. Finally, the Inspector that there was no demonstrable need for tourism development on the appeal site or that the development could not be provided at a more sustainable location.

In summary, the Inspector fully agreed with officers' conclusion and the Council's refusal reason.

#### 24/00362/F and 24/01225/F - 141 Bismore Road, Banbury OX16 1JN

Erection of a single-storey garage at end of driveway into rear garden, and with covered seating area in the case of 24/00362/F

#### Appeals Dismissed

The Inspector considered the main issue to be the proposal's effect on the living conditions of No.89 Watts Road, with particular regard given to access to light and sense of enclosure.

The Inspector noted that the property's permitted development rights had been removed given the density of development/size of gardens. The Inspector noted the close knit pattern of development and the relatively small gardens and that "the planned estate is much more dense than typical developments which are more relevant to the GPDO".

In the case of Appeal A, the Inspector found that the garage would project for much of the length of the garden of the appeal site and along much of the rear boundary of no. 89 Wells Road. The Inspector noted that the neighbour's only outlook without development is to the south over the appeal site and to the east over the public accessway. The Inspector held that the combined height and depth of the proposed garage would result in an increased sense of enclosure of Nio. 89's rear garden, causing harm to their living conditions through loss of light, loss of outlook and a detrimental sense of enclosure.

In the case of Appeal B, the Inspector noted the reduction in height from 2.6 metres to 2.4 metres. The Inspector concluded that this reduction in height would reduce the impact but not enough to make the scheme acceptable, and that Appeal B would still in result in harm to the neighbour through a "sense of enclosure and loss of light".

The Inspector also refused the appellant's costs application, noting that there had been a number of discussions between the Council and the Appellant around height and depth of the proposed garage; the Inspector noted that the Council had made clear to the Appellant what height it would accept. The Inspector commented: *"Whilst it is good practice for a Council to seek amendments to resolve matters that are outstanding, they are under no legal obligation to seek such amendments. The only legal obligation and duty that the Council are under is to make a decision on a planning application based upon the information they have in front of them which they felt that there was sufficient grounds to refuse the application." The Inspector noted that, <i>"the Council were very explicit and consistent as to what height they felt was appropriate"*, concluding that the Council had not behaved unreasonably.

#### 24/01960/PIP - Barn Farm Plants, Thorpe Road, Wardington, Banbury, Oxfordshire, OX17 1SN

To develop the site for 7-9 dwellings with associated access, parking and amenity space

#### **Appeal Allowed**

The Inspector considered the main issue to be whether the site is suitable for residential development, having regard to its location, the proposed land use and the amount of development with particular regard to (a) the Council's housing strategy and access to key services, (b) the proposal's effect on the character and appearance of the area, (c) whether it would be an efficient use of land, and (d) the loss of village facilities.

In relation to location, the Inspector noted that Wardington is a Category B village, benefits from a public house, village hall, church and sports facilities and "is a short distance from" Cropredy, a Category A village, "which has a broader range of services and facilities", and that there is a regular bus service from Mondays to Saturdays with a bus stop close to the site.

The Inspector also mentioned that the site is brownfield land and is included in Part 1 of the Council's Brownfield Land Register. However, it appears that all brownfield sites submitted to the Council for consideration are included in Part 1, whether or not acceptable in planning terms. The Inspector stated that its inclusion in Part 1 of the Register indicated the Council considered it "appropriate for residential development", but this is the role of Part 2 of the Register.

The Inspector agreed with the Council that the site is outside and physically/visually separated from the built form of Wardington, and "cannot be said to form part of the built-up limits of the settlement", and in this way was contrary to Policies PSD1, BSC1 and Villages 1 of the CLP 2015 and saved Policy H18 of the CLP 1996. In relation to character and appearance, the Inspector concluded that while there would be inevitable change to the character of the site the proposal would not harm the character and appearance of the area and could be design appropriately to complement its surroundings.

In relation to efficient use of land, the Inspector noted that the proposal would fall well short of the 30 dwellings per hectare sought by Policy BSC2 and indeed would be c. 10 dw/ha, but held that given the site's context that a more intensive form of development could be problematic in terms of its impact on the surrounding area. The Inspector noted that the proposal would lead to the loss of existing businesses at the site including a garden site and café, but held that these businesses do not serve the basic needs of the local community and that there was no clear evidence the site would continue to be a viable employment site.

The Inspector did not reference the Council's 2.3 years housing land supply, but did give weight to the proposal's benefit to the delivery of additional housing and concluded that this outweighed the conflict with the Local Plan.

## 24/01476/F - 133 Warwick Road, Banbury, Cherwell, OX16 2AR

Retrospective single storey rear extension and outbuilding

#### **Appeal Dismissed**

The Inspector considered the main issues to be the effect of the development on the character and appearance of the area and on the living conditions of neighbouring occupiers, with regards to outlook and daylight.

The Inspector noted that a previous application for development was approved, but that both the rear extension and the outbuilding constructed are larger than approved.

The Inspector disagreed with the Council that there would be any impact on the Banbury Conservation Area through change to its setting but entirely agreed with the Council on its impact on the character and appearance of the area and the living conditions of neighbours.

In relation to visual impact, the Inspector noted the "sense of uniformity and heritage" to the terrace of dwellings and a "notable degree of spaciousness and greenery" to the gardens, concluding that the outbuilding would be "overly large" within its garden setting, projecting considerably into the rear garden, dominating its immediate surroundings and as a result would be "out of keeping...and detrimental to the area's green and spacious attributes".

In relation to neighbours' amenity, the Inspector found that the rear extension "looms above the rear of No. 135, dominating the outlook from the rear of [the] neighbouring dwelling" as well as causing harm through loss of daylight.

## 24/01489/F - 17 Read Place, Ambrosden, Bicester, OX25 2BH.

single storey side extension.

#### **Appeal Allowed**

The Inspector considered the main issues to be the highway safety, and the effect of the proposed development upon the living conditions of the occupiers of a neighbouring property, with particular regard to loss of outlook.

The Inspector held the neighbouring property at no. 15 Read Place would be located on slightly higher ground than application site and thus the impact on neighbouring amenity is not so significant to warrant a refusal.

With regards to loss of the on site parking space, the Inspector disagreed with the Highways Officer and did not consider that the loss of carport would compromise highway safety, as he concluded that there was sufficient on-street parking to compensate.

Based on the above and subject to conditions, the Inspector concluded that the appeal should be allowed.

# 5. Alternative Options and Reasons for Rejection

5.1 None. This report is submitted for information.

## 6 Conclusion and Reasons for Recommendations

6.1 The report provides the current position on planning appeals for information for Members.
