

Appendix 14

DOCUMENT CONTROL

Organisation(s)	Cherwell District Council (CDC)
Policy title	Reserves Policy
Owner	Finance
Date of implementation	February 2020

DOCUMENT APPROVALS

This document requires the following committee approvals:

Committee	Date of meeting approved
Executive	09 September 2024

DOCUMENT DISTRIBUTION

This document will be available on the Finance intranet page.

DATE FOR REVIEW

No later than 31 March annually but sooner if required.

REVISION HISTORY

Version	Revision date	Summary of revision
2.0	05 July 2023	Addition of section 6.2
2.1	09 September 2024	Amendment of section 6.1 to delegate authority of use of capital receipts reserve to the S151 officer

CHERWELL DISTRICT COUNCIL RESERVES POLICY

1. Background

- 1.1. The purpose of this policy is to set out how Cherwell District Council (CDC) will determine and review its overall level of reserves and how it uses them.
- 1.2. Sections 31A and 42A of the Local Government Finance Act 1992 require authorities to have regard to the level of balances and reserves needed for meeting estimated future expenditure when calculating the council tax requirement.
- 1.3. CDC has usable reserves and unusable reserves on its Balance Sheet. The unusable reserves are as a result of accounting adjustments and are not therefore available to spend. This policy will concentrate on usable reserves.

2. General Policy

- 2.1. Usable reserves can be split into the following categories:
 - General Balances
 - Earmarked Reserves
 - Revenue Grant Related Reserves
 - Capital Reserves
- 2.2. CDC maintains usable reserves primarily for the following reasons:
 - The need to put aside sums in case of unexpected or unplanned events or emergencies.
 - To smooth out the impact of payments on the revenue account
 - To cover timing differences such as grant money received in any given year where expenditure takes place in a later year
 - To provide pump prime funding for projects to deliver changes in working practices on an invest to save basis. Any approved use on this basis must include an agreed repayment plan
 - A means of building up funds to meet known or predicted liabilities
- 2.3. Reserves can only be used on a one-off basis which means that their application does not offer a permanent solution to delivering savings or reductions in the level of expenditure.

3. Usable Reserves

3.1. General Balances

- 3.1.1. These are funds that do not have restrictions as to their use. CDC can use them for any purpose within the General Fund. The purpose of general

Appendix 14

reserves is to manage the impact of exceptional emergencies and unforeseen events. Without such reserves the potential financial impact of these unforeseen events could cause a financial deficit in the General Fund, which would be severely disruptive to the effective operation of the authority.

3.2. Earmarked Reserves

3.2.1. Earmarked Reserves enable CDC to set aside sums to meet specific future anticipated liabilities. Funds could be set aside for items such as (but not limited to):

- cyclical maintenance,
- cyclical events such as elections,
- income generated that must be spent on specific purposes,
- managing market volatility (e.g. commercial rent)
- insurance.

3.2.2. Earmarked reserves should not be held for a sustained period of time as they are held for a specific purpose¹. Where earmarked reserves are no longer required for their original purpose or are not expected to be spent over the medium term they should be reviewed and a decision made on using for alternative purposes.

3.2.3. In line with financial regulations, where a service has generated a service underspend as part of its day to day running, this should not be requested to be set aside as an earmarked reserve without a specific purpose; it should contribute to the overall benefit of CDC's financial position and the achievement of its corporate objectives.

3.2.4. The request to use earmarked reserves, create new earmarked reserves or contribute to existing earmarked reserves (where not approved as part of the budget) must be approved by the Executive. The allocation of Earmarked Reserves will be made when services can demonstrate that the funding is required for that particular purpose.

3.3. Revenue Grant Related Reserves

3.3.1. These reserves relate to the unused element of grant support for which the conditions of the grant are expected to be met. The reserves will be used to meet future years' expenditure for the service for which the grant was awarded. These reserves are managed by Directors.

3.3.2. CDC holds various Section 106 reserves which were contributed by private companies to improve the local community. The fund must be used for the specific scheme and within the agreed timescale. If funds are not used they need to be returned back to the contributors.

¹ with the exception of insurance reserves held to manage risk for which it is difficult to forecast when they will be called upon

Appendix 14

3.3.3. Use of these reserves should be planned as part of the budget setting process. Use of these reserves during the financial year requires approval by the Section 151 Officer.

3.4. Capital Reserves:

3.4.1. These are reserves that have been set aside to finance capital schemes and cannot be used to support revenue expenditure without the consent of the Secretary of State for Local Government. These reserves comprise:

- Capital Receipts Reserve reflects the income received from the disposal of capital assets prior to being used to fund future capital expenditure or for the redemption of debt. Capital receipts cannot be used to fund revenue expenditure except where allowed by statute. CDC will allocate resources from the Capital Receipts Reserve in line with its priorities
- Capital Grants Unapplied reflects the unused element of capital grants or capital contributions awarded to CDC, for which the conditions of the grant support are expected to be met or for which there are no conditions. The reserve will be used to meet future years' capital expenditure in a way which best fits with CDC's priorities.

4. Determining the Level of General Balances and Earmarked Reserves

- 4.1. CDC must maintain sufficient general balances and earmarked reserves to cover the key financial risks and contingencies.
- 4.2. Section 25 of the Local Government Finance Act 2003 requires that when a local authority is agreeing its annual budget and council tax precept, the Chief Finance Officer must report on the adequacy of the proposed financial reserves
- 4.3. As part of the budget setting process the Section 151 Officer will consider and assess the level of general balances and earmarked reserves. Consideration will be given to the strategic, operational and financial risks facing CDC.
- 4.4. Major factors to be considered when evaluating the level of general balances and earmarked reserves, include but are not limited to the following:

Budget Assumptions	Issues to Consider
Inflation and interest rate volatility	The overall financial standing of CDC
Scale of budget gap over the medium term	The trend of CDC's financial management and the robustness of the MTFS – i.e. is it balanced over the medium term and delivered annually?

Appendix 14

Savings delivery	Size, scale, complexity and pace of the savings programme and risks around slippage or non-delivery.
The availability of other funds to deal with major contingencies and the adequacy of provisions	The adequacy of CDC's arrangements to cover major unforeseen risks.
Income streams	Volatility in levels of income
Government funding	Political landscape and approach to allocating funding across local government

5. Governance and Review

- 5.1. The Council recognises the need to hold and maintain adequate reserves that meet the needs of the organisation. However, there is an opportunity cost as a result of the Council allocating resources away from other potential uses. It is therefore essential for the Section 151 Officer to regularly review the purpose and level of reserves.
- 5.2. All anticipated use of reserves should be understood and recognised as part of the budget setting process and agreed when Council approves the budget.
- 5.3. Any identified use of, or contribution to, reserves after the budget has been set should be approved by the Executive, or the Section 151 Officer in the case of grant reserves, prior to the budget being changed. Uses should be for specific purposes for which reserves have been set aside and not to address savings non-delivery or budget pressures. Contributions to reserves should be for specific costs expected to be incurred in the future.
- 5.4. The reserves position is reported quarterly as part of the revenue monitoring process. The planned usage of reserves is also included as part of the budget setting process. In addition the level and use of reserves is reported and reviewed during the closedown process.
- 5.5. The reserves policy will be reviewed annually as part of the budget setting process.

6. Use of Reserves Approval

- 6.1. Table 1 below shows the level of approval required to use or contribute to usable reserves.

Appendix 14

Table 1 Level of approval required for requested use of or contribution to reserves

Type of Reserves	Level of Approval Required*
General Reserves and Balances	Executive
Earmarked Reserves	Executive
Revenue and Capital Grant Related Reserves	Section 151 Officer
Capital Receipts Reserves	Section 151 Officer**

* Unless previously approved by Full Council as part of approval of the budget

** If the Section 151 officer feels there is benefit to using the flexible use of capital receipts direction to fund revenue costs then in line with the statutory guidance a flexible use of capital receipts strategy will be taken to full council for approval.

- 6.2 The current trend for external audits to extend beyond the end of the next financial accounting year can result in changes to the accounts which could have an impact on useable reserves. Therefore, for changes to and from useable reserves which come about as a result of external audit following the submission of the annual outturn report, the Section 151 Officer will have delegated authority, in consultation with the Portfolio Holder for Finance, to manage the impact on useable reserves of such changes to ensure the long-term resilience of the Council. Any such changes made under this delegated power will be reported to the Executive when the audit is complete.
